

**Del Mar, California
June 24, 2007**

Although the Championship Off Road Racing series is off for the summer, Taylor and her #27 Pro Comp Motorsports Trophy Kart are constantly looking to get in track time when ever possible. The folks at MMR and CORR had the opportunity to participate at an event at the San Diego County Fair in Del Mar California and as well jumped on the opportunity. Taylor was selected as part of a 12 car invitational only field to show the thousands of fair goers what Trophy Kart off road racing is all about.

Although a unique environment for a race, the crowd and racers loved it. With carnival rides and junk food in the back ground, a 2000 seat fair ground arena was transformed into a off road course crammed tight with jumps, turns and bumps.

The event consisted of an early afternoon qualifier round and a late afternoon main event. Both heats went off smoothly and good clean racing was enjoyed by all.

Being the only female driver, Taylor was instantly a crowd favorite with the family oriented, cotton candy eating spectators cheering her on. Taylor answered back to her home town crowd with some exciting fender to fender racing and took home **Second Place** in both the Qualifier and Main Event.

Thanks go out to Tony of Mini Motorsports Racing and Scott from Championship Off Road Racing for the invite and hospitality, Rocky of Cycle Parts West for the great moral support, and a special congrats to Phillip for his win.
